

## Master class trainings on capital markets were held within the Listing Advisory Program

Master class trainings were organized for members of the Azerbaijan Stock Market Participants Association, representatives of the private sector and students of the Azerbaijan State Economic University within the Listing Advisory Program of the Baku Stock Exchange.

The training was organized to inform the community about the capital market, change attitudes toward property, increase financial literacy and disseminate practical knowledge about capital markets in higher education institutions.

Ozlem Sayiler, professor at Anadolu University in Turkey, presented international experience in capital markets and the experience of companies that have achieved success in IPOs in developed countries, building professional relationships with investors and the formation of effective ways to finance in this direction.
